## **By The People, For The People** **American Politics** **A Lost Cause? Or A Time For Change?**

"By The People, For The People" is the new hard hitting book that discusses American politics. Pulling no punches, this book touches on so many of the subjects that matter most to the American people, empowering them to make a difference by proposing some major changes.

Everything from the 2016 Presidential election to partisan politics, the two party system, accountability in government, voter security, limiting politicians pay and perks, more controls on special interest and lobbying groups, equal representation of every state, removal of wasteful and outdated laws and more.

Growing up in Arkansas has allowed him a unique perspective in regards to past President of the United States Bill Clinton and his wife the presidential candidate Hillary Clinton.
